This was published by me before, but it's worth repeating

I would rather "waste" a hundred catalogs

of this rather costly catalog,
than slight a single collector

For that reason, I am sending out nearly Two Thousand copies (2,000) of this fine catalog—the largest number of Sale catalogs distributed by any other Numismatic Firm anywhere in the world.

Several hundred of these catalogs go to new collectors. If you are one of the "new ones" or an "old collector" receiving my catalog for the first time, it is sent you to show you the QUALITY of the Sales I hold and the fine and interesting catalogs I issue, and of course to invite your business.

I'll gladly send you ALL of my catalogs I issue, *provided you want them.*

And the only way I can know whether or not you want to receive these fine catalogs is *by your telling me so.*

A good way to "tell me" is by sending some bids or an order for the Price List of THIS important sale.

And *right now* is a good time to do it. And I assure you that you'll be glad that you did.

To Avoid Misunderstanding Please Read These Terms of Sale Before Bidding

Positively no change from these terms made for anyone.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS

Lots are sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer $1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalog. This guarantee holds good indefinitely. And my guarantee means something to you. Remember that there are thirty years of proven successful numismatic experience and ample financial responsibility back of this guarantee.

NOTICE TO NEW BIDDERS

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me or those who have had no previous credit established, must send a deposit of at least 25% of their bids, **otherwise they will not be accepted**, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing values of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, April 17th, 1934.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

UNITED STATES SILVER DOLLARS

Above-the-average collection, including the rarities of 1794, 1836, '39, '51, '52 and '58.

1 1794 First year of issue. The usual specimen with the lower left side of obverse and corresponding side of reverse not struck up. This is a feature, though not a desirable one, of all the specimens of this rare dollar. The obverse of this one is good to very good; the reverse can be classed as good although portions of the legend is very weak and other portions almost fine. It is free from any nicks or dents. As a whole it is a desirable and acceptable specimen of our first and one of our rarest dollars. This coin is far more rare than is generally known, (Cost $135.00 several years ago).

2 1795 Not only of the same type of the 1794 but the same head. Two leaves under wings. Strictly fine with traces of luster, and unusually sharp. Said to have cost $10.00 and certainly worth it today.

3 1795 Head type, as last; three leaves under wings. Strictly fine; sharp.

4 1795 Bust type. Only a shade from uncirculated; considerable mint luster; every star filled. A beautiful coin and as such rare and valuable, with high auction record.

5 1795 Just as last but only good to very good.

6 1796 Small date. Strictly very good. Scarce date.

7 1797 Sixteen stars. Tiny dent on reverse edge, otherwise strictly fine. Scarce.

8 1798 Obverse and reverse as last. Small eagle; thirteen stars. Nearly fine. Rare. Seldom found better. (Cost $12.00.)

9 1798 Obverse as last. Reverse with heraldic or large eagle. Good to very good.

10 1799 Six stars to right of bust; perfect date. Good obverse with very good reverse.
11 1800 The so-called dotted date. Fine with very fine reverse.
12 1801 Very good, nearly fine, but initials lightly scratched on obverse.
13 1802 Perfect date. Fine, strictly so.
14 1803 Large 3 in date. Small faint scratch on obverse, otherwise very good.
15 1836 (No dollars coined from 1805 to 1835 inclusive.) Liberty seated, C. Gobrecht on base; no stars. Reverse, flying eagle amid twenty-six stars. Practically a perfect brilliant proof; a beautiful specimen of probably our most beautiful dollar. Rare and in great demand. Record over $30.00.
16 1839 Flying eagle. Same type as last; Liberty seated, but with stars on obverse, no stars on reverse; milled edge. Beautiful brilliant proof; just the slightest touch of cabinet friction on obverse field. Just about as perfect as is possible to obtain. Record over $100.00.
17 1840 Obverse as last but of course not struck in such high relief. Reverse, eagle standing. Fine. Scarce date.
18 1841 Very fine; some frosty mint luster. Not a common date.
19 1842 Very good to fine, with light, hardly noticeable dent on obverse edge.
20 1843 Very good.
21 1844 Very fine; some luster. Very scarce date.
22 1845 Extremely fine, with proof-like surface.
23 1847 Very fine, only shade from uncirculated; sharp.
24 1849 Very fine, with some luster.
25 1850 Fine, strictly so. New Orleans Mint.
26 1851 Practically uncirculated; just the very faintest touch of cabinet friction. A perfect specimen of one of our rarest silver dollars. Record over $100.00.
27 1852 Very fine. Extremely rare, more so than the 1851.
28 1854 Very fine, with some luster, but the date not bold. Very scarce date.
29 1855 Just about fine. Another very scarce date.
30 1856 Fine; not often found better. Scarce.
31 1857 Lightly nicked on obverse, but otherwise strictly fine.
32 1858 A magnificent perfect brilliant proof; sharp. A small scratch in field above eagle, but this but very slightly impairs the beauty and appearance of the coin, as it is hardly noticeable. Only about 80 specimens said to have been struck. Record $50.00.

47 1871 Pattern Dollar. Obverse just as last; reverse, regular dies. Struck in copper; plain edge. A-W 859, Rarity 12. Six to eight coined. Uncirculated; even brown surface, with traces of mint red. A beautiful and rare coin. Should bring at least $25.00.

207 1903 Gold Dollars. Duplicates as last. Jefferson and McKinley. Both uncirculated. 2 pcs.

208 1904 Gold Dollar. Lewis & Clarke Expedition, with portraits on either side. Brilliant uncirculated. Rare and in demand. Retails at $12.00. Very limited issue.

209 1905 Gold Dollar. Lewis & Clarke. Same as last, only different date and just about as rare. Bright uncirculated.

210 1904, 1905, Duplicate set as last. Almost as choice. 2 pcs.

211 1916 McKinley Memorial. Portrait of McKinley; view of his Memorial at Niles City, on reverse. Brilliant uncirculated.

212 1917 McKinley Memorial as last. Bright uncirculated. Although at one time I had as many as ten thousand (10,000) of these gold dollars on hand, having purchased the entire remainder of the issue from the Memorial Association, but now it is seldom I have more than a few in stock and these readily retail at $6.00 each. With the present status of all gold coins, it will not be long before almost any perfect commemorative gold dollar will be bringing about $10.00 each.

213 1922 Grant Gold Dollar, commemorating the 100th anniversary of his birth. Portrait of Grant. Reverse, view of his birthplace. Variety without star above the name GRANT. Uncirculated. Rare.

214 1922 Grant Gold Dollar as last but with a five-pointed star incused or sunk-in above the name GRANT. This was done simply to catch the collectors going and coming; issuing two varieties in order to make two sales. However, collectors seemed to like the idea so here they are.

215 1926 $2.50 Gold. Sesqui-Centennial, Philadelphia. View of Liberty Hall. Uncirculated. Not as plentiful as some collectors may think.

216 Duplicate Set of U. S. Commemorative Gold Dollars, 1903 Jefferson and McKinley; 1904, 1905 Lewis & Clark; 1915 Panama-Pacific; 1916, 1917 McKinley Memorial; 1922 Grant, variety with star. All uncirculated. The retail value of this set is about $60.00. Please make your bid at so much for the piece and not for the lot. 8 pcs.

LARGE U. S. CENTS—UNUSUALLY NICE SET

217 1793 First year of issue and first type, CHAIN with AMERI. on reverse. This specimen has seen but very little circulation and on reverse shows traces of original red. It can easily be classed as extremely fine. This identical specimen was sold by me in the great Ten Eyck Sale in 1922. It then brought $70.00. It was afterwards sold in the Duncan Sale. It easily compares favorably with similar specimens that have brought from $150.00 to $200.00.

to T. James Clarke 12/54 - REN

218 1793 Second or wreath type. Crosby 9-G. Small LIBERTY. Strictly fine to very fine; free from any nicks or dents and far above the average for this rare coin. A cent worthy of a home in any collection and said to have cost $60.00.

219 1793 As last, Crosby 9-H but without die break on reverse. Good to very good.

220 1793 Crosby 11-J. Obverse, good; reverse, about good. Small nick on obverse; date about fine. Rare.

221 1793 The rarest variety of this rare date, Liberty Cap. Variety with die break across obverse. Crosby 13-L. The coin is strictly good, but for this piece can be classed as very good, and I have seen no better specimens classed as fine. Very rare. Easily a $25.00 to $35.00 coin.

222 1793 Same rare variety as last but without die break. Crosby 12-L. Very good, with light brown surface. Extremely rare variety.

223 1794 The rare Hays No. 6. Fine obverse with very fine reverse. The obverse is slightly pitted. Well centered and well struck with even brown surface. Rare. Cost $15.00.

224 1794 Hays No. 11. Good to very good. Rare variety.

225 1794 Hays No. 12. Good to very good; slightly pitted surface; dark steel color. Rare number.

226 1794 Hays No. 14. Classed as Rarity 3. Good, with fine date. (Cost $6.00 several years ago.)

227 1794 Hays No. 19. Another rare number but not in such hot condition. The coin is apparently fine but has quite a little collection of corrosion spots. However, it would still be a good buy at about $5.00, as choice specimens are worth several times that amount.

228 1794 Hays No. 21. Variety with two die breaks on reverse. Strictly fine; can be classed as very fine; attractive light brown surface.

229 1794 Hays No. 26. Good to very good, and an awfully rare variety. Cost $15.00 in the good old days when large cents were the principal source of amusement for collectors and one of the principal sources of income to the dealer.

230 1794 Hays No. 33. Very good obverse with good reverse. Few minor nicks. Scarce variety.

231 1794 Hays No. 34. The usual curved die break on reverse. About fine. A good $4.00 or $5.00 Cent.

232 1794 Hays No. 48, Rarity 5. Very good, but surface is rough. Evenly struck and well centered. Rare. Said to have cost $15.00.

233 1794 Hays No. 51. Strictly fine, with even light brown surface. An unusually nice cent of this very scarce number.

234 1794 Hays No. 54. With the exception of three small nicks on obverse, the coin is fine with medium olive surface.

235 1794 Hays No. 55. Pronounced die break on obverse. Strictly good to very good. Very rare. (Cost $15.00.)

236 1794 Hays No. 56. Early impression of the die, faintest die break on obverse. Strictly fine to very fine; light nicks on edge but still a most acceptable and worthy specimen for any collection of fine cents. Another cent for which fifteen perfectly good dollars was paid.

237 1795 A real gem Cent. Plain edge. Variety with ONE CENT in center of wreath. Beautiful uncirculated, with even light glossy olive surface with a blending of original red. As beautiful a cent of this date as is almost possible to procure. A cent that cost $45.00 in 1922 and should bring a great deal more today. While great rarities in gold and silver are constantly being discovered, but very seldom if ever does a new specimen of a choice cent appear. These are all from old collections.

238 1795 Type as last; plain edge, but value, ONE CENT high in wreath. Three pin-point nicks on reverse edge. Strictly very fine; sharp with even light brown surface.

239 1795 Thick planchet; lettered edge. Doughty No. 67. About fine; sharp. Scarce so choice.

240 1795 Lettered edge. One of the finest and sharpest specimens I have handled in many a day. Beautiful extremely fine specimen; sharp, with even dark olive surface. Well centered and struck; the lettering on edge deeply incused. A cent that cost $30.00 a number of years ago and is certainly worth that and more today.

241 1795 The rarest variety, not in Doughty. Lettered edge. the word LIBERTY hyphenated, LIBER-TY. Strictly very good; fine for coin. Very rare, with record over $50.00.

242 1796 Liberty Cap variety. Obverse very good; reverse, good, with center trifle weak. Very scarce.

243 1796 Bust type. Nearly fine; well struck and centered; even brown surface. Cost $8.00.

244 1797 Close even date; short fraction. About fine; even brown surface. Scarce.

245 1797 A real honest-to-goodness Gem Cent. Magnificent uncirculated specimen. Perfectly centered with even broad milled borders, and beautifully struck. The surface, on both obverse and reverse, is the same; original red turning to a beautiful glossy brown. It is difficult to describe the actual beauty of this coin. Doughty No. 100. As much as $250.00 has been asked for a Cent of this date, variety and condition. (I don't know if $250.00 was obtained, but I do know that this Cent is certainly worth into the three-figure mark, and if you get it for less, it will be a better investment than any gold rarity.)

246 1798 Variety with the peculiar die break on reverse, at fraction. Strictly very good.

247 1798 Small 8 in date. Good to very good. Scarce variety.

248 1799 Perfect date, with unusually bold 9's, bottoms of which show very plainly. The coin is very good but unfortunately is slightly nicked at RT in LIBERTY. Without this slight defect the coin would have been worth $75.00. As it is, it's a good purchase at $25.00 to $35.00, as the 9's are as good and better than on many $150.00 Cents.

249 1799 over '98. Strictly very fine. I have seen Cents of this date and variety in no better condition priced at $300.00. This one cost well over $100.00 and is certainly worth that today.

250 1800 over 1790, Doughty No. 145. Good.

251 1800 Doughty No. 151. Classed as very rare. Good.

252 1801 Blunt 1's; perfect fraction. A minor planchet nick on obverse. Very fine. Quite rare so choice. Just try and get a real choice 1801 Cent.

253 1801 Variety with die break on obverse and the fraction is 1/000. Fine. Very scarce.

254 1802 Variety with stems to wreath. Very fine; sharp. Scarce so choice. Cost $8.50.

255 1802 The rare variety without stems to wreath. Fine. Rare.

256 1803 Small 3 in date; large fraction on reverse. Extremely fine; light brown surface. Cost $5.50 and certainly worth it.

257 1803 The rare large 3 variety and broken die on reverse. Very good. Extremely rare. Far more so than the 1799. High auction record.

258 1803 Small 3 and small fraction with very short fraction line. Strictly fine; even brown surface.

259 1803 Small 3. Reverse, small fraction with 1/100 over 1/000. Die break on edge at RIC. Light nicks, otherwise fine. Very scarce variety.

260 1804 Perfect die. Obverse strictly good; reverse, good but upper left not struck up. Rarest die of this rare date.

261 1804 Variety with die break on obverse only. Good to very good. Rare, as all are of this date.

262 1804 Die break on obverse and reverse. About fine, with nice even dark olive surface. A Cent said to have cost $35.00.

263 1804 The so-called Re-strike which really is a "mule", the obverse being of 1804 and the reverse of a Cent of the period from 1816 to 1830. Struck at the Mint from rusty dies but at a later date than 1804. Uncirculated, with considerable original mint red. These usually bring about $5.00.

264 1805 Blunt 1 in date. Strictly fine, with an extremely fine reverse. Gray olive surface. Very scarce so choice. A good $7.00 coin.

265 1805 Pointed 1 in date. Very fine, with glossy olive surface. The rarest variety and in unusually rare condition. Cost $12.50. Ten times as rare as the blunt 1 variety.

266 1806 Strictly very good, nearly fine. Very scarce.

267 1807 over '06. Large 7; small fraction. About fine.

268 1807 Perfect small date and large fraction. Fine, but slightly struck off center on obverse. Very scarce.

269 1808 Thirteen stars. About fine; trifle off center on obverse; dark steel color.

270 1809 Very good obverse with strictly fine reverse. Well centered. Very scarce.

271 1810 over '09. Only a shade from uncirculated. Just a trifle off center as usual. Mint red turning to light olive. A scarce cent in extremely rare condition. This identical coin was at one time valued at $100.00.

272 1810 Perfect date. Fine obverse with very fine reverse; medium brown surface. Cost $9.50 fifteen years ago.

273 1811 Perfect date. Strictly fine; medium brown surface. Rare, especially so choice. Valued by former owner at $25.00.

274 1812 So-called small date. Fine; strictly so. Scarce.

275 1813 Very faint scratch on obverse, otherwise fine.

276 1814 Crosslet 4. Very fine; sharp; bold impression.

277 1816 Andrews No. 2. Die break on obverse edge. Just a shade from uncirculated. Lovely color. Scarce. Retails at over $3.00.

278 1817 Fifteen stars. Extremely fine. Variety with die break at AM on reverse. Just a shade from uncirculated, with every star filled. Quite rare and valuable so choice.

279 1817 So-called large date. Andrews 14. Uncirculated, with almost full mint red.

280 1817 Just as last and of the same die but uncirculated; beautiful glossy reddish brown surface. A Gem in every respect and as such very scarce and valuable. As much as $15.00 has been paid for similar cents.

281 1818 The common variety with die break connecting stars and date. Uncirculated; red and olive surface. When these cents were first discovered, they sold at about 50c each but they have been bringing now from $2.00 to $3.00 each.

282 1818 Andrews No. 3. Perfect die and stars close to date. Fine to very fine, but obverse slightly pitted. Probably the rarest die of this date and I believe it has a record of near $20.00.

283 1819 Andrews No. 8. Small date. Beautiful uncirculated specimen with frosty light brown surface. A magnificent Cent. Seldom equalled.

284 1819 over '18. Andrews No. 2. Large date. Uncirculated, with glossy surface. This was originally purchased as a proof.

285 1820 Large perfect date. Uncirculated, with **proof** surface. Originally purchased as a proof. Golden olive surface. A Gem and as such quite scarce. Similar cents of this date have brought over $10.00.

286 1820 The common variety with die break connecting all stars and date. Uncirculated, with light brown surface. A beautiful cent. Now retails at $2.00 to $3.00.

287 1821 Close date. Very fine; strictly so; well centered and with fine dark olive surface. A very scarce date in rare condition. This cost $12.00. Far more rare than the 1823.

288 1822 So-called medium date. Uncirculated, with original color shading to a light golden brown. Highest portions show slight cabinet friction. High auction record.

289 1823 over '22. Without die break. Strictly fine. Originally purchased as very fine. Light brown surface. Rare so choice. Cost $6.00 and I consider it a bargain at this price today.

290 1823 Re-strike with heavy die break on obverse. Uncirculated, with original mint red turning to light brown; considerable proof surface.

291 1824 Fine; strictly so; dark olive surface. Very scarce. I believe this coin to be more scarce than either the 1821 or 1823, especially in nice condition.

292 1825 Very fine; sharp. Very light pin-point nick in center of reverse. Medium brown.

293 1826 over '25. Andrews No. 8. Beautiful uncirculated specimen; light olive surface. Perfectly centered and unusually bold impression. I may be a bit enthusiastic about choice cents, but after handling coins for nearly thirty-five years and analyzing the rarity and values, I cannot help but feel that choice large cents are undoubtedly the rarest of all American coins and will continue to become more rare as time goes on.

294 1826 Andrews No. 7. Perfect close date. Magnificent uncirculated specimen with beautiful iridescent steel surface. A Gem of the highest water. A similar specimen in the Dr. French Collection was listed at $30.00.

295 1827 Close date. Extremely fine, with traces of original red. I doubt if the coin has seen any circulation outside of handling in collections.

296 1828 Small date. Extremely fine; sharp; light brown surface. Scarce variety in rare condition. Cost $9.00.

297 1828 Large date. Practically uncirculated, with iridescent red and olive surface. Pin-point, hardly noticeable, nick on obverse edge. Rare so choice.

298 1829 Varieties with small and large letters on reverse. Good and about fine. 2 pcs.

299 1830 Die break connecting date and stars on right. Reverse, large letters. Uncirculated, with reddish brown surface. A beautiful and rare cent so choice.

300 1831 Large letters on reverse. Extremely fine; sharp. Obverse little off center. Even brown surface.

301 1831 Small letters on reverse. Andrews No. 3. Nearly uncirculated; light brown. Very scarce. (Cost $5.00.)

305 1834 Double profile. The most pronounced variety of this type that I have ever seen. Very scarce.

306 1835 Small date. Uncirculated, but not with bold impression. Red turning to olive. Not as choice a cent as the description would signify.

307 1836 Perfect die; date high and distant from border. Extremely fine; glossy olive surface.

308 1837 Plain and beaded hair cords. Very fine pair. 2 pcs.

309 1838 About uncirculated, with glossy light olive surface.

310 1839 over '36. Very good. Perfect die. Very rare. Cost about $8.00.

316 1840 Large date. Very fine; sharp; light brown.

317 1841 Andrews No. 1. **Brilliant purple proof.** Magnificent Cent and in proof condition, of extreme rarity. Valued up to $20.00, and I doubt if a specimen could be purchased in open market at that price.

318 1842 Small date. **Purple proof.** Extremely rare in proof condition, with an old record of $30.00. I doubt if more than a dozen specimens are known in proof.

319 1843 Obverse of 1842; reverse of 1844. Fine.

320 1843 Obverse and reverse of 1844. Very fine. Scarce.

UNITED STATES HALF-CENTS

PLEASE NOTE CAREFULLY CONDITION and SOME UNUSUAL RARITIES.

324 1793 First year of the Half-Cent. Crosby 1-A. With legend close to wreath on reverse. Fine for coin. Far above the average. Rare.

330 1797 Excessively rare variety with lettered edge, and the finest specimen I have ever had the pleasure of handling. The coin is strictly very fine, with even dark steel color. Usually this rare variety is found in poor or fair condition; seldom even good. In this choice condition this coin is as rare as **any** Half-Cent. It should bring very near the three-figure mark.

332 1802 over 1800, as all are. Good obverse with very good reverse. Rare date.

333 1802 **The excessively rare variety, with reverse as 1800.** Gilbert No. 2; classed as **Rarity 10.** This is the highest rarity rating given by Gilbert, and only one other Half-Cent, the 1852 with large berries, has that rating. In other words, this Half-Cent is considered one of two of the rarest of all Half-Cents. I do not recall of ever before handling a specimen of this great rarity. It is as valuable as any Half-Cent with record up to $150.00 or more. A pin-point, hardly noticeable nick at F in OF. Strictly fine, with even brown surface.

354 1835 Uncirculated; sharp, with red turning to light brown.

355 1836 Original; with large berries on reverse. Proof; light grayish olive surface. Reverse, iridescent purple. Sharp and perfect in every respect. Beautiful specimen of this excessively rare coin. With record near the three-figure mark.

358 1850 **Proof**; almost in full brilliancy. A common date in very rare condition. Cost $5.00.

359 1851 Uncirculated; sharp; red and olive surface. Scarce so choice.

The early dates about good, and from 1797 on, they are good to very fine. Nice little collection in itself. If purchased separately, would average about 50c each. 34 pcs.

RARE MINOR PROOFS AND SMALL CENTS

365 1877 Small Cent. Proof. Rare and getting more so all the time.

372 1855 Pattern Cent. Not quite as large as the regular copper cent but of the same type but without stars on obverse. A-W 187. Bronze. Uncirculated, with mint luster. Retails from $3.50 to $5.00.

373 1855 Pattern Cent. Same type as last but with flying eagle on obverse and thirteen stars. Copper-nickel proof. Very attractive both in design and condition.

One of Rarest of All Small Cents

376 1856 Flying Eagle Cent, but with oak wreath and ornamental shield on reverse. Struck in light copper-nickel; more nickel than copper. A-W 210; rarity 12. I do not recall of ever before having had a specimen of this variety of this most popular coin. Excessively rare and valuable. Valued up to $50.00. If the ordinary 1856 Flying Eagle Cent is worth from $15.00 to $20.00, this coin is surely worth over $100.00. There are probably from 50 to 75 of the other 1856 Eagle Cents for every specimen of this rare variety.

419 **California. $50.00.** 1851 Augustus Humbert, 880 THOUS. Variety with milled edge. The usual minor nicks on edge, but a specimen far above the average of these interesting, rare and historical coins. The coin was purchased as very fine. The coin cost $160.00 four years ago and certainly $50.00 gold pieces are not worth any less today.

From the Will of

Edmond de Goncourt

(Translated)

My wish is that my Drawings, my Prints, my Curiosities, my Books—in a word, these things of art which have been the joy of my life—shall not be consigned to the cold tomb of a museum, and subjected to the stupid glance of the careless passer-by; but I require that they shall all be dispersed under the hammer of the Auctioneer, so that the pleasure which the acquiring of each one of them has given me shall be given again, in each case, to some inheritor of my own tastes.

When you decide to sell your collection at auction, or for immediate spot cash, let me tell you and *show* you how and why I can serve you to your entire satisfaction and profit.
